London Announces Increase in Artillery Fire Near Albert.

Lack of Fighting Spirit Reported Among Crack German Divisions.

Most of the First Class Shock Units Have Been Badly Broken Up.

Recruiting New Members Has Weakened Spirit of Foe.

By Associated Press Dispatch.

Significance may attach to the official report of heavy artillery fire in the sector between Arras and Albert, which comprises the northerly continuation of the Somme battle front.

London today announces a considerable increase in the German artillery activity between Albert and Beaucourt, a 10-mile front covering about half the distance between Albert and Arras. It is along this line that many of the military observers are predicting that the expected German blow will be struck. What is known as the Arras salient, which projects from the British lines between the German salient of the Somme and the Lys is standing in the way of a further German advance toward the coast or the Franco-British lines of communication.

By cutting these lines at important points the enemy apparently hopes to divide the two armies.

Lack of fighting spirit in the crack German divisions it is reported, is holding back a renewal of the heavy battles.

Most of the first class units were shattered severely in the fighting of the last two months, and require more rest before they can again take up more active operations.

PROMPT RESPONSE TO FAYETTE'S WAR CHEST

Wayne Township First to Go Over The Top With Several Thousand Dollars Above Quota

Willingness To Do Their Bit Manifested By Host of Loyal Citizens.

Laborers Arouse Workers Before Sun-Up to Give Bit.

The big drive for \$100,000 or more with which to fill Fayette county's war chest opened bright and early Monday morning, and in some districts the people who wanted to give beat the workers to the matter and the workers were aroused before breakfast by men who wanted to be first—and in each instance it was a laboring man who was the early bird.

Workers on all sides reported to the main committee throughout the day that they were surprised at the willingness shown by citizens in general—a willingness which amounted to eagerness to do what little they could by giving.

And Wayne township is the first to go over the top—and has not only gone over the top with a whoop, but is still going, with every indication that when the canvass is completed she will be over the top nearly double her quota.

Wayne township's quota of the minimum \$100.00 fund, was \$8,000 and at 10 o'clock Monday morning Chairman Daugherty received word that the total subscriptions in the township amounted to \$13,066, divided up with \$5,366 to the credit of East Wayne, and \$7,700 to the credit of West Wayne.

The great success in Wayne has been an incentive to the other workers who were notified of the big fund

subscribed, and other townships are now rolling up a fund which is expected to be a credit to their respective communities.

In this city the workers, like those in every district in the county, got onto the job early, and met with great success, so that when the report of the first day's work is announced, the figures are expected to show a surprising total.

In Perry township, before sun-up on Monday morning, E. M. Haines, one of the war chest workers, was visited by two farm laborers who stated that they wished to do what they could to help, and each man subscribed liberally.

In this city the first man to appear at the War Chest headquarters was a day laborer. "I want to help, and want to make my total \$12, or \$1 each month," he announced. Similar reports come from other communities.

It was announced that the readiness of those in modest circumstances to give and to give liberally, has been such as to attract unusual attention, and is a glowing example of how Fayette countians have come to aid the War Chest and are determined to back the boys in the trenches to the last dollar if that is necessary.

Scores of workers have dropped all other work and will devote their time to the task of shoveling into the war chest the offerings of an aroused people, so that when the house to house canvass is completed in all districts in the county it will be filled to overflowing.

The big War Chest fund is "going over the top" in short order, and those who fail to get on the band wagon will be so very, very scarce, it is believed, that they will be a decidedly lonesome bunch.

"Now is the time for all good men to come to the aid of their country!" Help the War Chest, and don't forget the meaning of "I to 31."

church, delivered a beautiful and patriotic prayer. After the singing of America by the Glee Club and the audience, Rev. Geo. L. Hart of the First Baptist church read effectively the scripture lesson.

Miss Ada Woodward sang touchingly, accompanied by Miss Light on the organ: "When the Boys Come Home" by Olej Speaks. There was scarcely a dry eye in all the audience during Miss Woodward's especially fine singing.

Mr. Brownell, in a few well-chosen remarks then introduced the speaker of the evening, Dr. McAlpin, one of the most eminent of New York City's ministers.

Dr. McAlpin had scarcely completed his first sentence before the audience was convinced of his deep enthusiasm and intense earnestness of purpose and, at once, every hearer partook of the enthusiasm of the speaker.

Dr. McAlpin at once directed his remarks to the great purpose uppermost in the mind of everyone. He spoke of his work in army camps during the past year, his acquaintanceship with the boys—our boys—how they missed the home surroundings, the home influences and of their unselfish devotion to duty—how uncomplainingly they accepted the sacrifice they had been compelled to make, how clear was their understanding of the deep underlying issues of the war, how anxious they were to do all in their power, relying upon the folks at home to support them.

Instancing our duty to support the army the speaker called attention to General Chaffee's famous response to the allied army generals during the Boxer rebellion in China. When after each one had expressed his doubt about the ability to reach Peking, and rescue the imprisoned foreigners, General Chaffee stated that the next morning the American troops would "march."

As a sequel to that he told of the cablegram forwarded to General Chaffee the day before by Elihu Root, then Secretary of State, giving him permission to march on Peking and stating that one hundred million Americans were behind him and his army.

That, Dr. McAlpin stated, should be the message now in this and other war chest campaigns. "One hundred million loyal Americans stand back of you." The way to send that message is to fill these war chests and keep up the home comforts for the boys.

Dr. McAlpin said he had no patience with the pacifist—that he was a man of peace but that we must have peace that meant peace—not German deception.

He likened Germany to the mad dog, the menace which must be overpowered. He was willing, he said, to for-

give Germany her sins when Germany repented of her sins and became contrite and honest and returned the property out of which she has robbed other nations.

He was not afraid, he said, that the grand battle line in France—the British, French, Belgians and Americans—would break, but he was fearful of the pacifist at home who might be influenced by Germany's peace propaganda to be launched after the next drive failed. "This propaganda," he stated, would be the greatest and most vicious the world has ever seen and absolutely barren of honest intention, and we must be on our guard. The insidious, insincere peace drive is more to be dreaded than Hindenburg's offensive.

It was a splendid address and aroused the people to a clearer understanding of the needs and duties of the hour.

The services were closed by Rev. Grove, of the Christian church, with a beautiful prayer of thankfulness and hope.

ATHLETICS LOSE OPENING GAME TO WHITE SOX

The opening game of the local baseball season was played Sunday afternoon on the Sycamore street diamond. It was a good game, a close game well played and not over until the last man was retired in the ninth inning. The defense work of both teams was excellent and while the score of three to one recorded Washington on the short end, yet the Athletics, manager and players have no cause to grumble at the game fight made.

For the first time out new line-up and many players new to the lot the game they played was remarkable.

The White Sox are a strong organization and play well together.

The locals out played the visitors almost two to one, Washington used three pitchers, Melvin, Nowlands and McCullough and the visitors one, Bender. While each side made three errors the locals managed to bunch theirs at the wrong time, while the visitors placed theirs where they were harmless.

BRITISH FLEET NOT INACTIVE

(Associated Press Correspondence)

London, April 11.—In view of the reiterated German statement that the British fleet does nothing but lie in home water and harbors, some interest attaches to a report of the British Admiralty which shows that during a single month recently the British Grand Fleet and its units steamed a total of over a million miles, while for patrol vessels around the British coasts, the figure was approximately six million miles.

Fayette County's WAR CHEST

Campaign Is On

For the purpose of enabling the county to pay its quota to all recognized War Work activities, for the purpose of insuring every dollar given by patriotic people, to bear the cost of war's necessary auxiliaries such as the Red Cross, the Army Y. M. C. A. and other activities bearing the authentication of the war department as necessary war work, for the purpose of relieving people from numerous campaigns reducing uncertainty to certainty, relieving active business men of the need to make separate campaigns, in order that every dollar, every penny, every ounce of energy may be applied where it will bring the greatest result in war, to apply business methods to the biggest business in the world—the most important business to every community and individual this plan has been devised.

Fill The War Chest And Every Call Upon Our People Will Be Met Promptly

You are asked to give only a small part, one thirty-first of your monthly income. Our soldiers give all. Remember the boys in the trenches. Remember the lack of home comforts. Remember your neighbor's boy if you have no boy of your own.

Fill The War Chest Promptly Fill It To Overflowing

THE Y. M. C. A. ON THE BATTLE FRONT

In their fight against the Kaiser, American soldier boys under shell fire in France are being given all possible comforts and assistance, according to announcement just received here from the National War Work Council of the Y. M. C. A. At the present time there are more than 250 American Y. M. C. A. secretaries under shell fire. These men have been with Pershing's troops from the time they landed on foreign soil.

A total of \$5,000,000 is being expended monthly by the Army Y. M. C. A. in its work for the American troops at home and abroad. There are 2,500 Y. M. C. A. workers in France and England and 3,000 in American Camps.

Because of the increasing need for men in this service and the force

necessary to operate the entire canteen system in France, efforts are being made to enroll at least 1,000 more business and professional men of high standing who are willing to go to France for every kind of Y. M. C. A. service before July 1.

It is estimated that 8,000,000 feet of film are being exhibited weekly to the soldiers at home and abroad. A recent shipment of athletic equipment for the troops in France consisted of 79,680 base balls, 19,000 bats, 10,000 gloves, and mitts, boxing gloves, volley balls, and various other kinds of apparatus for promoting the play spirit among the troops in their leisure hours.

The Y. M. C. A. has established a chain of huts and dugouts along the front lines occupied by American troops "over there" and is meeting the needs of the Sammies as they take their places alongside their Allies. The Y. M. C. A. huts on the Russian front have been demolished

by German guns and the 150 secretaries there have retired before the advance of the Huns and are now established in Siberia awaiting an opportunity to return to Russia.

HOW THEY GO AFTER PEACE DISTURBERS IN CITY OF XENIA

If you leave your auto exhaust open and have \$100 and costs, prepare to shed it now.

A vigorous campaign is being agitated against motorists who operate their machines on the city streets with the muffler wide open, in direct contravention of a city ordinance.

An ordinance passed some time ago, makes it a misdemeanor to operate a machine within the city limits with the exhaust pipe open and provides for a fine upon being found guilty, of not more than \$100 and

costs. Agitation against the practice especially on some of the newly paved streets, has reached such a point that action is being started at once to stop it.

It is planned to post an auto cop on one of the streets in question and make a wholesale arrest of offenders. Judge Smith is prepared to do his worst in an effort to break up the practice and motorists should take the warning from this. That the purpose of the ordinance will be lived up to is the promise of the authorities.—Xenia Gazette.

Now for the War Chest

The campaign, if such it should be called, to fill Fayette county's war chest began today. Every indication now is that the campaign will be largely conducted by the people themselves now that they understand the proposal and so thoroughly approve of it.

The war chest plan, such as has been adopted for Fayette county, is admittedly the best business method yet devised for dealing with the biggest business, the most important business—the business of war—which ever confronted the people of the United States.

The war affects every state, every community, every home and every individual and with each it is the business of primary importance.

Individuals have long since realized that there must be organized effort. Individuals haven't the time nor the wide range of experience to keep posted on where to put their dollars to make them count most in the defense the world is waging against the barbarians. Business men who do, and must, keep in touch with war activities, can't be expected to give several days each week to conduct campaigns of education and to raise funds for the many war activities.

The war chest plan has been devised and put into operation. It enables the people to pay into the custody of men who are in touch with affairs, amounts for the support of each one and all of the war activities, and these men in charge of the war chest apportion these funds as merit demands.

The county by that method always meets the demands and the dollars of the people go to the right spot to insure the greatest service.

Triumph, "Mightily and Worthily."

We must triumph in the struggle—that's the aim and the purpose of all, but we must triumph "mightily and worthily."

How correctly and how plainly the President expresses it.

It will do humanity no good to win the war which the Huns are waging unless it is a decisive triumph of arms and of right. We must hold fast to the higher and nobler purposes during all of the trying days of suffering and sorrow, and when the day of settlement comes, as come it must, we must not lose, for one instant, the nobler thoughts and purposes if the world is to be saved to liberty.

We must triumph "worthily" else the struggle has been lost so far as securing to the world any permanent and lasting good. To triumph "worthily" we must not permit ourselves to hate blindly and unreasonably. There is a vast difference between blind barbarous hate and righteous wrath.

America is struggling for humanity—the humanity of the present and humanity for all time. Principles vital to human liberty must be established throughout the world—they must triumph and they must triumph by might and worth combined. The Huns seek to destroy those principles by might and to meet that effort the liberty-loving world must summon its might to the fray, but behind that might the foundation of America's strength is the worth and justice of the principles which America and her allies have taken up arms to defend.

President Wilson is conceded by all to be a great speaker and writer—a great phrase-maker, but back of those beautiful phrases and complete sentences there is the remarkably correct and the logical understanding of the great principles of justice and human liberty to be finally established now and forever throughout the world.

Xenia Gets Busy

The city authorities over in our neighboring city of Xenia have determined to stop the incessant din and confusion occasioned by open exhausts on automobiles if there is anything in the law warranting them and they claim they have the law with them.

We hope Xenia succeeds in its crusade and that the efforts of Xenia authorities will be followed by our own official family.

Washington streets have been producing a bedlam of unnecessary noise during every day of the week, Sunday included, by reason of the auto exhaust nuisance.

There is no need, for autoists to keep their exhausts open—no excuse at all. Indeed the better class of machines are constructed with mufflers permanently closed.

Something must be done soon or people will be compelled to suspend business on week days and go out in the woods to hold "meetin'" on Sunday. The streets are intended for the public to use to pass from place to place without unnecessarily infringing the rights of the property owners and business folks.

Poetry For Today

THE PACIFIST

Long years ago there lived, 'tis said,
A kind of man (they still exist)
Whom people called a Copperhead.
They call him now a Pacifist.

When to protect the weak we fought
The man who dared not to enlist
Was dubbed a coward. Now we're taught
To say he is a Pacifist.

When one who coldly answered her
Who shrieked for help, "Do not resist!"
Men fiercely said he was a Cur—
But now he is a Pacifist.

In time of war one who should say,
"Yield to our dear antagonist!"
Was deemed a Traitor, but today
He boasts he is a Pacifist.

Then lower the flag and sheathe the sword,—
While tortured hosts appeal in vain
Accept the Kaiser's sacred word
Lest our distrust should give him pain.

Count Honor as the veriest dross.
Let holy Freedom's name be hissed
And, sending for the Iron Cross,
Bestow it on the Pacifist.

FARM NOTES

Poultry and Food Tour

A poultry demonstration automobile will be sent out from the College of Agriculture to tour a large portion of Ohio this summer, beginning June 1.

The purpose will be to increase the supply of poultry and eggs through offering information regarding practices looking toward conservation and the stimulation of greater production.

Demonstrations will be given in the candling of eggs, selecting fowls for egg production, expediting crate fattening, and application of remedies for control of insect pests. Model poultry equipment will be exhibited and conferences regarding local problems will be held.

F. S. Jacoby and M. C. Kippatrick, poultry specialists, will offer the instruction.

In addition to the poultry instruction, Lena Banpas, an extension home economics instructor, will give demonstrations in the canning of fruits and vegetables and information on food conservation.

The itinerary of the demonstrations for the first part of June follows: Circleville, June 1; Williamsport, 4; New Holland, 5; Clarksville, 6; Bloomingburg, 7; Jeffersonville, 8; South Solon, 10; Jamestown, 11; Bowersville, 12; Milledgeville, 13; Sabina, 14; New Antioch, 15; Leesburg, 17.

Reducing Egg Losses

During the summer months the quality of eggs in Ohio is considerably inferior to that of the months of March, April, and May. With the advent of warm weather there is constant spoilage due to the fact that the eggs are extremely perishable.

Fertile eggs soil very rapidly. Incubation starts at seventy degrees and progresses rapidly at a temperature from ninety to a hundred degrees. Ordinarily eggs pass through the hands of four or five different middlemen before they reach the ultimate consumer. From the time the eggs leave the farm until they reach artificial refrigeration, there will be deterioration in the quality. Consequently, summer eggs should be marketed frequently and kept as cool as possible.

An infertile egg will not spoil as quickly as a fertile egg. Dealers buy eggs by the dozen and pay for both good and bad eggs. These bad eggs must be eliminated before they reach the consumer. Consequently, the

price paid the farmer is not fair to the man who is producing only good eggs. It is estimated that the loss in Ohio from these inferior eggs amounts to two cents for every dozen marketed.—F. S. Jacoby, the Ohio State University.

Overheard in the Garden

The surest way to prevent injury from the cucumber beetles, I find, is to protect the young plants with fine screen or cheesecloth coverings. A cigar box with top removed and the bottom replaced by cheesecloth makes a cheap and serviceable protection. These small striped, yellow and black beetles appear about the plants, very suddenly and soon destroy them if unprotected. Dusting the plants with tobacco dust, powdered sulphur, or air-slaked lime is a good way to prevent injury as these substances have value as repellents. This method is the one usually followed by the large truck growers. Repeat the application as often as it is necessary to keep the plants covered.

Get A Wheel Hose

One of the most useful and labor-saving tools for the garden is the wheel hoe. It is much more efficient than the ordinary hoe.

HUN AERIAL POST IS NOW CARRYING MAIL

(Associated Press Correspondence)

Amsterdam, May 8.—A regular aerial postal service between Vienna and Lemberg established by the military authorities, began on March 31. The post carries mainly official dispatches, but may be used for private letters if the letters are franked with a special stamp, for which the price is about four times the ordinary rate.

The flight from Vienna to Lemberg takes about seven hours, as against about 17 hours by express train.

On March 23, an aerial postman left Vienna at 6:45 a. m. and arrived at Cracow at 10 a. m.

NEGRO IS BURNED BY ANGRY MOBS

Infuriated Tennesseans Riddle Body of Negro With Bullets and Then Burn It.

(By Associated Press Dispatch.)

Junction City, Tenn., May 20.—Thomas Debert, a negro, was shot to death and later his body was burned, last night near Erwin, by a band of men after a sensational chase in which the negro swam a river dragging with him the dead body of his victim, a 15-year old white girl.

The negro's body was dragged back to town to the negro section and the negro population was forced to come out and line up while the mob piled wood on the body, setting fire to the pile.

NO AGREEMENT WITH M'ADOO

(By Associated Press Dispatch.)

Washington, May 20.—Congressional leaders and Secretary McAdoo failed today to agree on whether revenue legislation should be undertaken at this session of congress and the decision was left until some future conference.

CHANCE EXPLOSIONS CAUSES SURRENDER

(Associated Press Correspondence)

London, April 19.—Surrender of a German force of 3,000 men in East Africa was due to the chance dropping of a number of bombs by a British air man, according to a report from Capetown, which says:

"An officer of the Flying Corps was out on reconnaissance in the region of the Rovuma River, but found nothing to bomb. Being forced to discharge his cargo of bombs to lighten his machine for the homeward trip, he chose a quiet spot and dropped them all causing, of course considerable noise.

"The German General, Tafel, was at the time marching to join his chief, Von Lettow, but news of the explosion was reported to him, and he, thinking a large force of the enemy must be somewhere in the district, diverted his line of march and before long bumped into a British force.

"Ultimately his whole force, 3,000 strong, surrendered."

ANNUAL MEMORIAL SERVICES HELD BY THE EASTERN STAR

Impressive Ceremonies Mark Annual Chapter of Sorrow at Masonic Temple, Sunday Afternoon—Thirty Members of Local Chapter Deceased.

Beautiful, inspiring, beautiful, was "The Chapter of Sorrow," with which, following the annual custom, Royal Chapter, No. 29, Order of Eastern Star, honored those members who had passed into the eternal realms, at the Masonic Temple Sunday afternoon.

There was a large assemblage of the order and the public generally and the atmosphere of the lodge room was charged with solemnity.

The members of the Chapter, through the impressive services, made in spirit a veritable pilgrimage to memory's shrine, where loyally the beloved dead are cherished.

The services were in charge of Mrs. Lea Gregg, Worthy Matron and Dr. W. E. Robinson, Worthy Patron. The opening and closing ceremonies were participated in by members of the Chapter.

Mrs. Corinne Larrimer, prefaced the Roll Call of deceased members, read by the Secretary, Mrs. Martha R. Mark, with a beautiful contralto solo, Mrs. Henry Wills accompanist. Responses were made by W. E. Robinson, W. P. Mae Rodgers, A. M. Amelia Waddell, Conductress, Reba Bay, Asso. Con.

Mrs. Annette Rowe made the address of the afternoon, briefly reviewing the history of the Chapter since its organization under the direction of the Marysville Chapter twenty-four years ago; its vicissitudes in the Masonic Temple fires and valiant rising above difficulties to its present flourishing condition. The Chapter, having 35 charter members, now numbers 246. Twelve of these charter members besides two Worthy Matrons and seven Worthy Patrons have crossed the bar.

Mrs. Rowe, who is a speaker of much fluency and poise, delivered a fine address, touching with much tenderness upon those members who were honored in the services. Mr. C. S. Haver's fine bass voice was much enjoyed in a solo "The Publican," Mrs. W. D. Craig accompanist.

Miss Mary Edge contributed a brilliant piano arrangement of "The Palms" and Mr. Walter Herron a beautiful tenor solo, "Still, Still With Thee," Mrs. Herron the accompanist. The Memorial was closed by the members of the Lodge, flowers being used in connection with the farewell tribute.

The names of deceased members were read in the order of their deaths. They were: Bro. J. E. Jenkins, Bro. H. M. Blessing, Sis. Clara M. Adams, Sis. Grace Austin Ellenberg, Bro. Jerome Penn, Sis. ANOTHER MEMBER COMPANY M DIES FOR FLAG HE LOVED

Corporal Earl Thomas, Who Was Seriously Wounded in Battle a Few Days Ago, Succumbs.

Is Second Member of Local Company to Find Resting Place in France While Doing His "Bit" Against the German Hordes.

Fayette county has given another of her noble sons in the defense of Liberty, this time a German bullet taking the life of a member of Company M, and bringing sadness and despair to his loved ones in this city. Corporal Earl Thomas, who was recently wounded in battle with the Germans, is dead. Last week he was reported as having been seriously wounded and Monday morning his name appeared in the casualty list as having died of wounds. Sunday a telegram giving notice of his death, was received in South Charleston, near which place the Thomas family is said to have resided. The telegram was sent back, and was expected to reach this city Monday.

Corporal Thomas, until recently a private in M Company, is a son of Mr. and Mrs. James Thomas, of Columbus avenue, and there is no doubt but what he did his part nobly and bravely in the cause of humanity against the common foe—the Germans.

Mrs. Thomas, mother of Corporal Thomas, when she learned that her son was seriously wounded, broke down completely, and since that time has been a nervous wreck.

Monday morning Miss Mary Robinson, of the Home Service Department of the Red Cross in Fayette county, went to the Thomas home to carry the message of the death of their loved one in France.

Corporal Thomas is the second member of M Company from this county who has made the supreme sacrifice to defeat the Germans, the first death being that of Clarence P. Downer, of Madison township, who died of pneumonia. At least four Fayette county men have given their lives in the present conflict, three being taken by disease, and the fourth, Corporal Thomas, by a German bullet.

The last letter written home before he entered the battle which was to be his last, was received by his brother, Frank, a short time ago, and is given below:

"On Active Service with the American Expeditionary Forces in France, April 9th, 1918.

"Dear Brother: "I seat myself today to drop you a few lines as I have received a few letters from you since I have been over here somewhere in sunny France, and am not sure that I have answered all of them, so I will write you a letter today anyway as I have nothing very rushing to do. I am well at present. I received a letter from Bertha and mother the other day, and they said they were all well and talked like you were going to leave home, but they did not say where you were going this time. I expect you will be gone before this letter reaches you, but I will write anyway.

"How is everything in Washington by this time?" "It has been pretty cold over here until now, and it begins to look like spring. I guess you certainly had some winter back in the states from what I can hear, but guess it is considerably colder back there than it is in France.

"Well, Frank, I don't know much to write, so I will close for this time, and hope to hear from you soon.

"Your Brother,
PRIVATE EARL THOMAS.

While the letter was written April 9th, it was not postmarked until April 22nd.

LIEUT. B. E. PAUL BACK ON U. S. SOIL MAY BE HOME SOON

Mr. and Mrs. G. M. Paul have received a telegram from their son, Lieutenant Billie E. Paul, formerly of Company M, now of Company K, stating that he had arrived safely at Hoboken, N. J., and was then stationed at Camp Merritt, awaiting assignment to some National Army Cantonment where he will spend several months as an instructor.

The telegram stated that he left France May 9th and made the trip to America in nine days. Also that he wanted to get home for a few days as soon as possible, if orders would permit him to do so.

It is expected that some time this week, Lieut. Paul will reach this city, although this, of course is a matter of considerable uncertainty, as orders may call him to some cantonment in another part of the country and he may not arrive here until later.

The news of his safe arrival in America will be welcomed by his host of friends, who are now eager to see him and talk with him about conditions in France.

RAINBOW REVEILLE ISSUED ONCE MORE

The Ohio Rainbow Reveille, published as the official organ of the Ohio Rainbow Division, 166th Infantry, is "out" again, after being tied up for lack of material, and the issue of April 29th has been forwarded to The Herald by Major Rell G. Allen.

In announcing the troubles of the "Reveille" the following statement is made:

"Off again! On Again!—Verily, trench journalism has its obstacles. Since April 1. The Reveille has suspended, while we've been searching from dug-out to port for multigraph ribbons and paper. Finally we were successful and we're off again! Colonel Douglas McArthur, chief of the Divisional staff, helped us materially in getting paper and the Y. M. C. A. found the ribbons in Paris."

FAYETTE MAN IS ON DUTCH SHIP

Frank McCafferty, son of George McCafferty, of western Fayette, in extending thanks to the Harmony Sunday School for a Christmas box sent him (and which he never received) mentions the fact that he is now aboard the former Dutch ship Celebes, which Uncle Sam recently took over with a bunch of other Dutch vessels in American ports.

His letter follows:
The Harmony Sunday School:
I suppose you think I am an unappreciative sort of person, but such is not the case. I was informed of your sending me a Christmas package. But same has not been received. While I know I would enjoy the contents very much, it is also lots of

WAR ACTIVITIES TO BE SHOWN

The Ohio State Fair is being run on the basis of a War Activity this year. With the purpose of stimulating production of fats premiums in the swine department have been increased \$1707.50 which makes a total of \$6143.50 offered. Another new departure is an effort to increase the number and value of war gardens by offering special prizes for City War Garden exhibits.

Secretary of Agriculture N. E. Shaw announces that the premium list for this year will be read for distribution about June 1st and invites the breeders of Ohio to write for a copy.

The immense Federal war exhibit which combines the war activities of the departments of Agriculture, War, Navy, Interior, Commerce, and Food Administration and the Committee of Public Information has already met a spirit of approval from every body.

AUTOS STOLEN

The daily newspapers tell of Ford automobiles being stolen right along at Columbus, Chillicothe, Springfield, Dayton and other places. The time for automobile thieves to get in their work is when you are not with your machine, when it is parked or in your garage. The cheapest insurance against theft is to have a Ram anti-theft lock put on your Ford auto. We install them in five minutes for \$2.50. Two keys with each lock. Hitchcock & Dalbey. Advt.

FIRST SESSION OF CHILICOTHE DIST. GROUP MEETINGS

The first of a series of "group meetings" of the Chillicothe District Conference, including the M. E. churches of Washington, Wellston and Waverly, is convening at the Y. M. C. A. of this city today.

Owing to war conditions these group meetings are held in the different localities with the purpose of economizing both time and travel.

The same subjects will be discussed at each of the three places and the practical work of the district accomplished just as fully as if one general meeting were held.

Monday's group meeting was scheduled for this city; Tuesday night and Wednesday for Waverly; Thursday for Wellston.

The program presented at today's session was opened at nine o'clock by W. B. Rose, with worship and carried out as follows:

9:15—"Our War Offerings, How to Take them."—Gunnitt.

10:00—"Keeping up our Benevolence, Davis (E. L.)

10:45—"Recruiting Our Membership," Laughlin.

11:30—"Increasing Our Advocate Subscription," Stone.

12:00—Adjournment for luncheon together at restaurant on self-serving plan.

1:30 p. m.—Worship, Moody.

1:45—How to Keep our Church Records, Kanuth.

2:30—The Pastor in the Epworth League and the Sunday School, Meyer.

3:15—The Permanent Endowment Fund.

4:00—Final adjournment.

Each speaker was allowed fifteen minutes in which to open his subjects, after which there ensued a general discussion conducted largely by the District Superintendent, Rev. J. C. Jackson, who is in charge of all three meetings.

Those attending in this city are: Dr. Jackson, A. P. Cherrington, E. L. Davis, W. M. Davis, P. W. Drumm, H. C. Gunnitt, J. F. Kanuth, J. G. Laughlin, R. S. Meyer, J. H. Moody, C. L. Pfaltzgraf, E. R. Robinette, W. B. Rose, E. E. Stone, E. K. L. Tunc, W. A. Whitmer.

CARRIAGE WRECKED AT STREET CROSSING

What came very near to being a bad accident took place at the intersection of Paint and North streets, Saturday night, when an automobile and carriage came together, with the result that the carriage was badly damaged and the automobile also was damaged. No one was injured.

The carriage had stopped for the auto, and as the machine started for war the horse is said to have taken fright and leaped upon the machine. The Paint street crossing and Court street crossing on North street are recognized as the two most dangerous crossings in the city.

FIRST AIRPLANE LETTER ARRIVES IN WASHINGTON

Postmaster S. A. Murry is in receipt of the first airplane mail to be carried by a government aviator and delivered in this city, the letter being from W. R. Walker, of Washington, D. C., formerly employed in the postoffice in this city.

The letter was carried from Washington, D. C., to Philadelphia by airplane, where it was placed in the postoffice and came through the regular channels.

While the letter was intended for the first trip, it is evident that it was carried on the second trip, being dated May 16th.

The letter bears a 24 cent stamp with a picture of an airplane on the stamp. The regular postage would have been about 14 cents, but the letter was registered.

The letter written by Walker, who is in government employ at Washington, follows:

Washington, D. C. May 14, 1918.
Mr. S. A. Murry,
Washington C. H., O.

Dear Friend:
As tomorrow is the first day for Airplane Postal Service, I thought you would like to get a letter which was carried on the first plane.

"I suppose airplanes will be running through Washington C. H. soon, and that Russell Dews will be the aviator, while Howard (Allen) will sort the mail while enroute.

"I don't know where they will drop this letter off, but I suppose at Philadelphia. They only run between Washington, Philadelphia and New York, but receive mail for any point in the Postal Union.

"I have not seen any of the planes used for the service, but I hope to see them soon. I guess they start from the Potomac Park, between the

river and the basin, just above the Highway Bridge.

"We are having very fine weather now; and it seems just like Ohio summer. Suppose it is just the beginning of a scorcher.

"I shall not worry you any longer, but will get this out on the next plane.

Respectfully,
WILLIAM R. WALKER."
